Is it possible to have your donation matched by your employer?

If you work for a company with a workplace giving program, it can be an additional source of funding for the 2017 MobilePack™. Workplace giving programs can be set up in a variety of way including employee matching gifts, which are donations an employer makes to match its employees' charitable contributions. Employee matching gifts often are dollar-for-dollar, but some companies will give double or even triple the original donation. Some may also give matching gifts for employees' volunteer efforts.

Below is a list of companies with gift matching programs. If your employer is on this list, you have the opportunity to make an even bigger impact. Please contact your human resources department and fill out the appropriate forms. Include the event code, MobilePack™ EVENT 1705-012EAa, to ensure donations are credited appropriately.
